

Electric Wood Trimmer

Model: **CT8-V**

710W • 6, 6.35, 8MM • 16000-35000RPM

The Endico CT8-V Electric Wood Trimmer is a professional-grade woodworking tool designed for carpenters, furniture makers, and modular kitchen specialists. Built with a high-quality aluminium body, this trimmer ensures durability, balance, and long life. Powered by a 710W copper motor, it features variable speed control with soft start technology, delivering 16,000–35,000 RPM for a clean and precise finish on every job.
